

NEON 1996

GRIN MACHINE

What happens when you design a small car that offers an exceptionally spacious interior, a strong multi-valve engine and a high level of standard safety equipment in one stylish package?

If it's Neon, you win Canada's "Car of the Year" and "Best New Economy Car" awards as selected for 1995 by AJAC – the Automobile Journalists Association of Canada. With standard dual front air bags,* steel side-guard door beams, rear-door child-protection locks (four-door models) and an optionally available Built-In Child Seat, Neon is designed to move Canadian families in secure comfort.

For 1996, Neon is offered in three two-door coupe or sedan models. All feature an advanced fully independent suspension design, wide doors that lead into a spacious interior, and the fun-to-drive experience that puts a grin on Neon drivers' faces.

* Always wear your seat belt.
