SIGNATURE STYLE | We've reconfigured MAZDA6 trim levels to deliver more of what drivers demand. The new GS-L trim comes with leather upholstery, moonroof, heated steering wheel and a matrix of our i-ACTIVSENSE safety features†. The new Signature model boasts supple interior styling with Nappa leather upholstery, Ultrasuede® and Sen wood accents and 360° View Monitor. Whichever model you choose, the MAZDA6 line-up has been reimagined to provide a sophisticated and calming environment.

i-ACTIVSENSE SENSIBILITY | Being proactive and avoiding an accident is always the safest route. With the available i-ACTIVSENSE suite of safety features†, sophisticated safety innovations help alert you to hazards so you can better avoid collisions – or lessen their impact. The result is a more connected driving experience. Which means you can feel more confident and more energized when focusing on what really matters – the road ahead.

STYLE, POWER AND CRAFTSMANSHIP | Every detail of the 2018 MAZDA6 is crafted to inspire. With elegant interior restyling and new engine options like Cylinder Deactivation* or the available Dynamic Pressure Turbo engine†, the MAZDA6 delivers exemplary performance and a unique sense of oneness between driver and car. Ergonomic at its core, every dial, button and knob is intuitively within reach. The steering wheel flawlessly responds to driver inputs. The car becomes an extension of you, acting precisely as you intend. Everything in perfect harmony so that each drive delivers pure exhilaration.

CRAFTED TO INSPIRE. ENGINEERED TO DELIVER | New for 2018, the MAZDA6 comes with two engine options.

SKYACTIV-G 2.5 L WITH CYLINDER DEACTIVATION | For even better fuel economy, the MAZDA6 GS and GS-L come with a SKYACTIV-G 2.5 L equipped with a new Cylinder Deactivation* system that automatically shuts down two of the cylinders in light-load situations such as when cruising at a constant speed.

SKYACTIV-G 2.5 T DYNAMIC PRESSURE TURBO SYSTEM | Mazda's industry-first Dynamic Pressure Turbo engine† delivers a boost in both horsepower (227 hp)♥ and torque (310 lb ft). Extra power is provided by using a small inlet port to force air into its turbocharger, akin to how water velocity increases when putting a thumb over a hose. GT and Signature models and optional on GS-L.

SMART CITY BRAKE SUPPORT (SCBS)
When travelling at speeds between 4–30 km/hour, the Forward Sensing Camera (FSC) detects objects ahead and Smart City Brake Support prepares the vehicle by adjusting brake pads closer to the disc. If no driver action is taken, the system automatically applies the brakes.

ADAPTIVE FRONT-LIGHTING SYSTEM (AFS)
The Adaptive Front-lighting System♦ is specifically designed to help you see around corners at night. As you turn into a corner, the headlights move up to 15° in the direction of your turn, thereby improving visibility and allowing you to spot potential hazards and dangers ahead.

ADVANCED BLIND SPOT MONITORING (ABSM)
Now standard on all models, the Advanced Blind Spot Monitoring uses radar sensors to detect objects in your left or right blind spots. The system then alerts you with a warning light that appears in the appropriate side mirror. If you signal a lane change while an object is in your blind spot, the light blinks and a cabin warning chime sounds.

*Standard on the GS and GS-L models.
†Standard on the GT and Signature models and optional on the GS-L model.
‡Not all i-ACTIVSENSE features are available on all models.
▲Standard on the GT and Signature models.
♦Not all colours are available on all models.

AN ELEGANT SOLUTION | Mazda's design and engineering philosophy is deeply rooted in the belief that everything, down to the finest detail, should elevate your spirit and enhance your driving experience. Cabin enhancements in the 2018 MAZDA6 are many. We started with overall improvements in noise-damping characteristics for a quieter, more pleasing ride. We redesigned the dash for a wide, sleek stance. Even the seats were improved, with a wider shape and thicker cushions for greater support on long-distance travels. Plus, select MAZDA6 models offer ventilated front seats* that wick warm air away to keep you cool.

MAZDA CONNECT

Now with a full-colour 8-inch touchscreen display, easily control the functions on your MAZDA CONNECT infotainment system using the HMI Commander – right at your fingertips. Standard on all models.

WINDSHIELD-PROJECTED COLOUR ACTIVE DRIVING DISPLAY (ADD)

The full-colour Active Driving Display* – projected right on your windshield – helps you stay focused by projecting critical driving information right within your line of sight.

NAVIGATION

Our convenient, integrated navigation* system offers the advanced features of today's navigation devices, including voice commands and advanced lane guidance. Plus, getting around town – or out of town – has never been easier thanks to the system's 3D interactive map with step-by-step audio directions.

*Standard on the GT and Signature models.

MAZDA6 SPECIFICATIONS

SPECIFICATIONS	GS/GS-L	GS-L (OPTIONAL)/GT/SIGNATURE
Engine type	SKYACTIV-G 2.5 L DOHC 16-valve 4-cylinder engine with Cylinder Deactivation	SKYACTIV-G 2.5 T In-line 4-cylinder with Dynamic Pressure Turbo (DPT)
