2019 MAZDA6

WELCOME TO THE CLUB.

A Mazda is never just a Mazda.
It's a feeling.

It's a shot of anticipation just
before you press start.

It's that urge to take one last
look as you walk away.

It's the notion that a vehicle
should move your body
as well as your soul.

It's a love affair with the road.
Any road.

It's a knowing glance that
passes between Mazda drivers.

It's the feeling that you don't just
own a Mazda, you have a lifelong,
irrevocable membership in
The Clubhouse of Driving Passion.

MAZDA6.

From first glance, you see the refined exterior styling you've come to expect from Mazda. The interior? The Signature trim is as elegant as it is striking. And we have the power of our available turbocharged engine to complement it all. The perfect blend of style, power and craftsmanship, the 2019 Mazda6 is steeped in bold innovations and refinements. With every glance, every curve and every kilometre, there is always more to discover and inspire.

「魂動」KODO
Soul of Motion

Our design philosophy is simple, yet highly challenging to accomplish: Capture energy in motion, even at a standstill. With curves and angles so striking they command your attention through a mere glance. Exciting you by the anticipation of what's to come. Eliciting this kind of instant emotional response requires a human touch. Created for humans by humans. Hands on clay, shaping form with warmth and precision. Eliminating all that is unnecessary, leaving only what is beautiful. We call this Kodo: "Soul of Motion" design. A dynamic sense of motion that urges you to get behind the wheel, to experience the unique energy that can only come from a Mazda.

「人馬一体」 ONENESS

Connecting car and driver

Every Mazda aspires to the same single goal: Oneness between the vehicle and its driver. When you experience this seamless connection, your senses become heightened. You engage with the moment and leave all distractions behind. You feel energized. Rejuvenated. Feeling better than when you first stepped in – during the drive and after. From the meticulous consideration of our design to how our cars effortlessly respond to even your slightest direction, each detail in the Mazda6 offers you a pure driving experience.

CANADA'S WORST CONDITIONS ARE OUR BEST TEST.

When meticulous engineering meets an unwavering commitment to quality, the result is unmistakeably Mazda. We test in some of Canada's most extreme climates and conditions to ensure our vehicles can withstand the elements. From corrosive climates, such as the high salt content in the air in Halifax, to extreme cold in Lac Saint-Jean, Quebec, your Mazda6 is ready to withstand Canada's weather conditions.

CORROSIVE CLIMATES

With salt water blowing off the ocean, and more hydrogen in the air than normal, Halifax is the perfect storm for corrosion. That's why we recruit Mazda owners from Halifax and assess how their vehicles fare against the climate.

EXTREME COLD

The frigid temperatures and dramatic snowfalls of Lac Saint-Jean, Quebec, help us test for the immediate effects of cold weather. This helps us ensure the reliability of our vehicles in the most extreme winter conditions.

WINTER ROADS

Montreal uses a destructive combination of salt and gravel on icy roads. This mixture can chip the paint, exposing metal that can be vulnerable to corrosion. We test here so that our vehicles are prepared for this threat.

ART DOESN'T MIMIC LIFE.
IT BECOMES LIFE.

Through their hard work and devotion, the spirit of the craftsmen remains in everything they bring to life. This immersive commitment is reflected in the sublime beauty and functionality of the Japanese Kodoki bowl. It's created by repeatedly hammering a copper sheet over 100,000 times for more than three months. Its aesthetic appeal comes from its form, consisting of thousands of facets, each a fingerprint of the craftsman's energy. At Mazda, our designers and engineers bring a similar level of meticulous obsession to their work, relentlessly seeking artistry at every step of the design process.

DESIGN WITH A SINGLE FOCUS: YOU.

Beautifully redesigned, the 2019 Mazda6 has been meticulously crafted around you, the driver. With each carefully engineered detail, from the steering wheel position to the gas pedal placement, the car becomes seamlessly connected to you. Even the 360° View Monitor puts you and your Mazda6 at the centre, providing a surround view of the outside of the vehicle. The system uses four strategically placed cameras to generate a surround view which is displayed on your Mazda Connect touchscreen. It's seamless integration with purpose for effortless use. Indeed, every dial, button and knob throughout the cockpit is exactly where you expect, allowing you to focus your attention on the drive.

ENGINEERED TO ENGAGE.

The soul of every Mazda6 is the unique feeling of unison between driver and vehicle. It's what we call *Jinba Ittai* – the Japanese principle of horse and rider as one. The human-centric cabin is meticulously crafted to engage your senses, so you can drive skillfully and comfortably. Beautifully tactile surfaces blend warmth and strength. Painstaking efforts were made to ensure superb cabin quietness, including sound-insulating glass with extensive seal insulation. And an abundance of standard features like heated front seats makes any road trip an engaging proposition. Because every driver deserves to be fully connected to the drive.

EFFORTLESS CONNECTIVITY.

Keeping you connected to your world while keeping your eyes focused on the road, the Mazda6 is as intuitive as it is interactive. The Mazda Connect infotainment system has been enhanced with Apple CarPlay™ integration. Access your iPhone's maps, playlists, contacts and compatible apps with your voice through Siri. Siri will also read incoming text messages and allow you to reply without taking your hands off the wheel. You can also navigate the features of Apple CarPlay™ with the optimally positioned multifunction HMI Commander control. For Android users, Android Auto™ integration is also standard. Everything you need for your drive, and your world, completely connected.

BALANCING SILENCE AND SOUND.

Too much road noise can be distracting and tiresome. Not enough can be disorienting. Through an overall improvement in noise-damping and insulation, our engineers were able to reduce the overall amount of exterior noise that penetrates the cabin, while still allowing for the optimal amount of sound from the road and engine. Your connection to the road is heightened. Your levels of stress and fatigue are lowered. It's all about shielding you from all that is unnecessary, so you can focus on what will bring you joy.

i-ACTIVSENSE

TO HEIGHTEN YOUR SENSES, WE CREATED A FEW OF OUR OWN.

Avoiding an accident in the first place is always the safest route. With the available i-Activsense suite of safety features, sophisticated safety innovations alert you to hazards to help you avoid collisions or lessen their impact. These innovations help improve your visibility and awareness of the road and monitor the traffic conditions around you. When needed, they will even perform lane-keeping adjustments and automatic braking. i-Activsense creates a more confident driving experience so you can feel focused and engaged with every drive you take.
