2020 MAZDA6

WELCOME TO THE CLUB.

A Mazda is never just a Mazda.
It's a feeling.

It's a shot of anticipation just
before you press start.

It's that urge to take one last
look as you walk away.

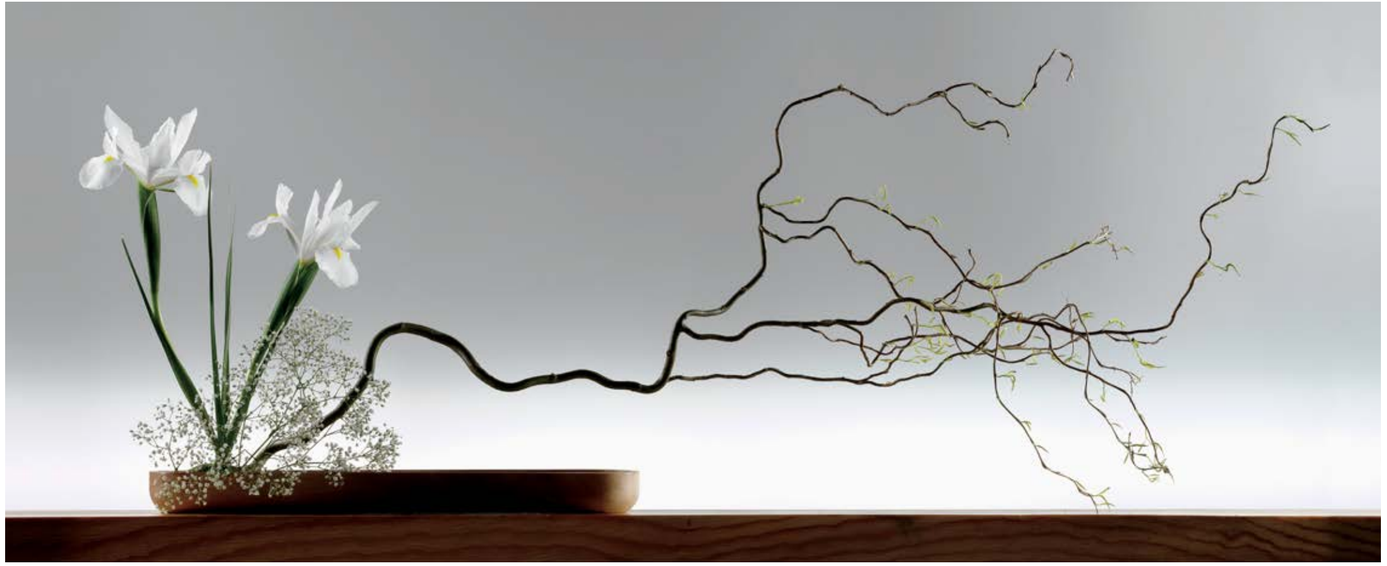
It's the notion that a vehicle
should move your body
as well as your soul.

It's a love affair with the road.
Any road.

It's a knowing glance that
passes between Mazda drivers.

It's the feeling that you don't just
own a Mazda, you have a lifelong,
irrevocable membership in
The Clubhouse of Driving Passion.

FEEL ALIVE™



ARTFUL DESIGN

The Japanese art of flower arrangement, Ikebana, expresses a philosophy of essentialism. Ikebana uses colour combinations, graceful lines and a harmony among the materials, the vase and the setting. Its beauty comes from refining a composition to its simplest form. Similarly, Mazda's design is based on extracting beauty by showcasing what is essential and eliminating the unnecessary. A philosophy eloquently expressed in the Mazda6.

Truly beautiful design goes beyond simply being aesthetically pleasing. It invites action. With its sleek, seductive profile, the Mazda6 demands to go new places. For you to see more. Feel more. And expand your possibilities. Inside, the available ambient LED cabin lighting* highlights an elegant cabin perfectly set to host new experiences and entertain bold ideas. With every glance, every curve and every kilometre, there is always more to discover and be inspired by.

JAPANESE MASTERY

The Mazda Takumi are the artisans and craftsmen who hone their skills for years, even decades, to achieve mastery. From their first sketch to the final stitch, their passion, patience and dedication are infused into every vehicle. The Takumi master clay modellers are so highly trained that decisions about form are not only a visual matter, but also a tactile one. Curvatures of different forms are sometimes sculpted with eyes closed, refined just by touch. Their exhaustive efforts to perfect their craft are made to leave you with their very best. They believe that their efforts impart a piece of themselves into their work. From designer to driver, this connection ultimately creates an enriching emotional bond between you and your Mazda.

It's a mark of pride. A symbol of authenticity. Nowhere is our unique expression of craftsmanship and mastery more pronounced than in our Signature trim. Ultrasuede® adorns the doors and dashboard and radiates a subtle gold sheen, using a technique similar to that which is used to make ornate kimonos. Natural materials like supple Nappa leather and Japanese Sen wood, often used for furniture and musical instruments, reward your senses. And leave you in a better state of mind after every drive.

HUMAN CENTRICITY

For decades, we've studied the human body: how it moves, sensations of touch, sound and sight, muscle and skeletal structure. Every consideration has been made so the Mazda6 feels as if it was built around you. Effortlessly responding to your direction. This is the human-centric design philosophy known as Jinba Ittai – horse and rider as one. You feel as though your Mazda is an extension of your body.
In everything we do, we aspire to make your driving experience as intuitive as possible. Creating a oneness between you and your vehicle. Seamless connections that help you engage with the moment. Which is why we engineer to a feeling, not a specification. To leave you energized. Rejuvenated. You, at one with your Mazda.

Your inspiration. Your space. Your command station. This is the driver-centric cabin of the Mazda6, where every control is ergonomically situated within your reach, so you can stay focused on the road ahead. An intuitive instrument panel places gauges and displays within your line of sight to minimize distraction. An 8-inch centre display shows music information, maps, and more, with clarity. The centre console and HMI Commander control are positioned for optimal comfort of the wrist and forearm. And the Mazda Connect* Infotainment System is equipped with standard Apple CarPlay™ (shown) and Android Auto™ integration. Communication between you and your vehicle becomes second nature – by design.

*Don't drive while distracted or while using a hand-held device.

INGENIOUS SOLUTIONS

While performance can be quantified, emotions cannot. The available Skyactiv-G 2.5 T DOHC 16-valve 4-cylinder Dynamic Pressure Turbo engine delivers up to 250 hp* and 310 lb-ft of torque. Impressive numbers, but only numbers, until you experience the Mazda6 firsthand. Our Skyactiv-Drive 6-speed automatic transmission is geared for you to feel the thrill in every pound of torque and horsepower – when and where you need it most. So each drive is more responsive, expressive. And enjoyable.

*250 hp with 93 octane fuel. 227 hp with 87 octane fuel.

360˚ View Monitor shown. Now standard on GT models.

To heighten your senses, we created a few of our own. Sophisticated safety innovations that alert you to hazards and help you avoid collisions – or lessen their impact. That's the thinking behind i-Activsense. This suite of i-Activsense safety features,* such as available Lane-keep Assist‡ system and Mazda Radar Cruise Contol‡ and the standard Advanced Blind Spot Monitoring† and Rear Cross Traffic Alert,† helps improve your visibility and awareness of the road.

*i-Activsense safety features are not a substitute for safe and attentive driving. There are limitations to the range and detection of each safety feature. See Specifications and Features for availability. Please see your Owner's Manual for further details.
†Always check your mirrors. Be aware of the traffic around you. There are limitations to the range and detection of the system. Please see your Owner's Manual for further details.
‡Standard on the GS-L, GT and Signature models.

Every aspect of the Mazda6 is engineered to work in harmony with your sensibilities. From the chassis to the transmission to the engine to the seats and beyond, we've designed each aspect of our cars to be powerful, efficient and intuitive to your needs. Every effort has been made to enhance the joy from driving through a completely holistic, smarter approach: Skyactiv Technology. Bringing car and driver together to create inherent connection.

EFFORTLESS JOYFUL DRIVING

Sometimes silence is just as important as sound. The Mazda6 is engineered to help insulate you from distracting outside noise, while still allowing for sounds from the road and engine so your connection to the drive is heightened. Your levels of stress and fatigue are lowered. It's all about shielding you from all that is unnecessary, so you can focus on what will bring you joy: exceptional driving.

We build every Mazda to inspire. How you feel is our rule of measurement. We believe driving should be effortless. And that joy should be found in every turn and every straightaway. We believe driving should exhilarate every fibre of your being. Because it can. And this is why we built the Mazda6.

FEEL ALIVE™

Visit our website to see all the vibrant colour choices available.

Every aspect of our design process is intentional. Including the paint. Before a single drop of colour is applied, master painters first perfect their technique by hand. Ensuring the surface of the Mazda6 has depth and saturation. Illuminating the curves and characteristics of our Kodo design. They apply colour with the precision of highly sharpened senses. Even the machines used to paint the Mazda6 are so well calibrated that they replicate the exact movement of this human technique. Our daring array of lustrous finishes may be the final touch on the Mazda6, but it is the first thing that will catch your eye.
